Caskapalooza***

***Try a Pint from a Live Cask of  
Brew Brothers Brewery's***

## ***Black Pilsner***

***re-fermented, dry hopped, and infused with coffee  
& vanilla beans – right in the cask***

***Our Black Pilsner is a dark European-style lager with subtle roasted coffee-dark chocolate notes. It has been Re-fermented in the cask with a special lager yeast, and dry hopped with a splash of German Hallertau hops. Most importantly it has been infused with a pot of fresh – brewed coffee and a whole vanilla bean extraction.***

***The re-fermentation, dry hops, and coffee-vanilla infusions have produced a smooth, naturally carbonated Black Pilsner with lots of fresh roasted coffee character, and a smooth vanilla bean sweetness coming through in the finish.***

***Cheers,***
